

Interconnectors

In the event of unexpected accidents during the construction period of interconnectors, our marine cargo and construction coverage protects the owner, manufacturer, or constructor's assets. For our Interconnectors insurance solution, cover can be extended to include re-imbursment of lost future income as a result of such damage.

Our operation coverage protects the owner / operators' assets in the event of unexpected accidents during interconnector operation. Cover can be extended to include re-imbursment of lost income as a result of such damage.

We offer cyber cover in conjunction with this policy.
